June 20, 2022

Dear **friends**,

We are just coming out of our [SPARK](#) series, feeling both frenetic and relieved. After a two-year hiatus, this particularly queer edition presented ingenious explorations of consent, luminescence, drag and diasporic identities. SPARK provided a wealth of face-to-face reconnections with artists and community - with more to come this summer as we look forward to a record number of residencies, performances and research projects!

Summer Activities

Next season we will host 13 artists in residence, in light of the pandemic bottleneck and the abundance of excitement for personal collaboration we're feeling these days, we are more than ever committed to supporting as many artists as possible. We will be welcoming [Aurora Prelevic](#), [Christopher Willes](#), [Justin de Luna + Winnie Ho](#), [Klara du Plessis](#), [Keith Fernandez](#), [Lauranne Faubert-Guay](#), [Lo Bil](#), [Marie-Reine Kabasha](#), [Rachelle Bourget](#), [Sarah Wendt + Pascal Dufaux](#), [Sandrine Kwan](#), [Thea Patterson](#) in studio, and working with [Thaïna Rosinvil](#) for the [Creative Exchange](#) project with CanDance.

In parallel, we are working with [Christopher Willes](#) and [Andrea Rideout](#) to enrich and help make our [archives](#) more accessible to researchers, artists and our own institutional memory.

And finally, 303 is co-presenting [3 FREE performances](#) this summer by two Queer Performance Camp 2022 artists: [Gabriel Dharmoo](#) (August 3rd and 17th) and [Moe Clark](#) (August 31st) with the McCord Museum as part of their downtown [Urban Forest](#).

Team

Last week, **Kim-Sanh** graduated from her Masters in dance (woooo!), while **Miriam** is set to graduate with a Masters in Human Systems Intervention this fall. This summer, **Ornella** is returning as production manager following her parental leave, while **Dom** takes on artists' services, and **Ola** is back with us, moving to communications. Each of our 5 permanent staff members will have occupied at least 2 different positions which will enhance our collective competence and capacity for collaboration. We are blessed to have the support of **Camille** throughout the summer to help launch our season, and **Noël's** help with special projects as she devotes more time to her artistic projects alongside her engagement with Team 303.

Fundraising campaign

Our fundraising campaign **NO STRINGS ATTACHED** continues until June 30th. All amounts are welcome! We feel your love and trust in *how* you give (unconditionally), and *how many of you* give, rather than in *how much* you give. We are so grateful for the freedom and flexibility your donations allow us!

[Donate here](#)

Warmly,

Team 303 ☆
